Title: Regulatory Affairs/Quality Assistant

Job description

LIITA Care offers a unique opportunity for qualified individuals who are genuinely interested in the pharmaceutical industry to join the LIITA team as an RA/QA assistant.

Company description

LIITA Care is a MedTech company focused on Respiratory Health. We are committed to improving the quality of life for patients and healthy consumers by developing and manufacturing new and better therapies and medical devices for respiratory health management. Our product Breathox® is currently marketed in Northern Europe and we are working towards divesting the Breathox® portfolio within the next 12-24 months.

The position

Your responsibility will be to support the quality department in maintaining and developing technical documentation regarding the medical device Breathox®. Furthermore, the ideal candidate possesses the ability to comprehend the regulative framework for medical devices (MDR) and how to ensure product compliance.

The position will give you with hands-on experience in a fast-growing medtech company and you will be an important part of projects such as strategic CMO engagement, technical documentation, and compliance projects. The required tasks will take place in the LIITA office in inner-city Copenhagen.

Qualifications

It is important that you have the ability to work independently, have a structured approach to your professional work and a solid experience in working with the office suite. Furthermore, the job requires you to have an ambition to expand your knowledge within manufacturing according to quality standards, QA/QC and medtech (pharma) regulation. It will be an advantage if you have experience in writing technical documentation and standard operating procedures.

We expect that you are at the end of your bachelor's degree or at the beginning of your master. A successful candidate can have different educational backgrounds, such as pharmacy, engineering or law. But the most important is your drive to excel in a QA/RA role in a dynamic startup company.
